THE UNIVERSITY

Preamble

The Himachal Pradesh Technical University (HPTU) was established in the year 2010 by an Act of Legislative Assembly of Himachal Pradesh with an objective for value creation and welfare of the society through technical education, training, research, innovation, entrepreneurship and continuing education programs. At the same time, the University is responsive to changing and exceptional requirements of our society and economy and contributes to find answers to global problems. The University offers both short-term and long-term programs leading to Advance Diploma and Degrees, which are conventional as well as innovative through public and private participation. Most of these programs have been developed after an initial survey of the demand for such Programs. The programs offered are designed to equip graduates and postgraduates with the necessary skills and expertise to be the leaders in their chosen professions. The key to success lies in the high premium it places on innovation, along with the work that is done by different players and stakeholders to promote the University achievements in the fields of Science, Engineering and Technology. This is being achieved through a benchmarking system, which ensures that training and research programs always meet the highest standards. National Education Policy – 2020 is being implemented in all the programs.

Vision

Our vision of autonomous Himachal Pradesh Technical University as dynamic, flexible institution promoting research led interdisciplinary learner-centric technical education which generates added value in teaching-learning, research and knowledge required for promoting integrated national development with global understanding.

Core Values

A primary core value of any university is academic freedom, which is enshrined in the Constitution of the Republic of India. This core value must be buttressed by institutional autonomy, but within an environment where public accountability is seen as a virtue. Principles and behaviours defined in the Charter must accord with these and the institutional core values below:

- **Customer Service; Integrity; Diversity and Innovation**

Message of Hon'ble Vice Chancellor

Students and Parents,

It is my privilege to welcome you to Himachal Pradesh Technical University (HPTU), established in 2010 by the State Legislative Act-16. HPTU stands as a beacon of excellence in technical education, driven by innovation and deeply committed to societal welfare and national progress. Our vision is to be a dynamic, flexible, and learner-centric institution that promotes research-led interdisciplinary education, empowering students to become skilled professionals and responsible citizens contributing meaningfully to nation-building and global development.

At HPTU, we are dedicated to creating value for society through cutting-edge education, training, research, entrepreneurship, and lifelong learning. Our academic programs—both conventional and innovative—are designed through extensive industry and societal consultation to equip our graduates with the knowledge, skills, and mindset necessary to lead in their fields. We prioritize innovation and quality by adhering to a rigorous benchmarking system, ensuring that our training and research remain aligned with the highest national and international standards.

The University's multidisciplinary programs in engineering, management, pharmacy, applied sciences, and humanities are aligned with the evolving demands of society and industry. In keeping with the spirit of the National Education Policy (NEP) 2020, the curriculum now includes multidisciplinary and skill based courses, with industry trends and emerging technologies like artificial intelligence, data science, Indian Knowledge System and Universal Human Values. With multiple entry-exit options and an emphasis on innovation and inclusion, the University aims to offer a holistic and future-ready learning environment. .

At the heart of HPTU are our core values—academic freedom, integrity, diversity, innovation, social responsibility, and good governance—which guide our efforts to nurture holistic development. We believe education extends beyond academics, encouraging co-curricular and extra-curricular activities to build socially conscious leaders who will serve society with empathy and vision.

As we move forward, I am confident that HPTU will continue to achieve new milestones in academic excellence, scientific advancement and societal impact both nationally and internationally. I invite students, parents, faculty and partners to join the HPTU family in this exciting journey toward a brighter and empowered future.

Dr. Abhishek Jain (IAS)

Message of Dean - Academic

Dear prospective Students,

It is a matter of immense pleasure for me to be a part of the Himachal Pradesh Technical University (HPTU), Hamirpur family as its Dean (Academic). I take this opportunity of welcoming students coming from all parts of the world, joining the University in undergraduate as well as postgraduate programmes. In their quest for knowledge, most of such students shall be moving away from the folds of their family. One needs to realize that they are just moving away from one family fold to another. Their teachers, seniors and peers, all form an extended family to whom they can look up for any guidance, support and help to move ahead in life as professionals in their study programmes they have opted for.

All the programs offered by HPTU follow the Choice Based Credit System (CBCS) with Outcome Based Approach. The flexibility in the curriculum has been designed with industry-specific goals in mind and the educator enjoys complete freedom to appropriate the syllabus by incorporating the latest knowledge and stimulating the creative minds of the students. Bench marked with the course of studies of various institutions of repute, our curriculum is extremely contemporary and is a result of brainstorming efforts of great think-tanks: faculty members, experts from industries and research level organizations. The evaluation mechanism employs continuous assessment with grade point averages. We sincerely believe that it will meet the aspirations of all stakeholders – students, parents and the prospective employers. Special care is being taken to implement National Education Policy (NEP) – 2020 focusing on its various components including skill development, multiple entry – exit, etc.

You shall learn how to think logically, deal with uncertainty, apply technology in a socially and environmentally responsible manner, communicate effectively and collaborate with others. Always remember that knowledge, know-how (skill), entrepreneurship and hard work coupled with dedication, devotion, determination and discipline are the keys to success. We, at HPTU, lay special emphasis on nourishing and motivating our students to “... become job providers than becoming job seekers ...” when they go out to serve the society and the nation.

I extend hearty welcome to all those who are desirous of seeking admission in our campuses and constituent affiliated institutions located throughout the state of Himachal Pradesh. I am confident and wish that it acts as a stepping stone for you towards a successful career in the fascinating world of professional education. I am sure, HPTU will prove to be a ‘home away from home’ to all of you.

Good Luck!

Dr. Rajesh Kumar
