

Mahatma Gandhi Government Engineering College Kotla Jeori

Name: Atish Deshta

Batch: 2020-24

Branch: Mechanical Engineering

College: Mahatma Gandhi Government Engineering College
Kotla (Jeor)

Atish Deshta embarked on his academic journey with a keen interest in Mechanical Engineering, enrolling in the prestigious Mahatma Gandhi Government Engineering College, Kotla (Jeor), Rampur. Through dedication and hard work, he not only successfully completed his B.Tech in Mechanical Engineering in 2024 but also emerged as one of the university toppers in his batch, showcasing his academic brilliance.

Passion for Research

Atish's passion for innovation and research became evident during his undergraduate years. His commitment to pushing the boundaries of engineering knowledge and solving real-world challenges laid the foundation for his future endeavours. Recognizing his potential and drive, he was selected for direct enrolment into the Doctorate program at the highly esteemed **Indian Institute of Technology (IIT) Mandi**.

Doctoral Pursuits at IIT Mandi

Currently, Atish is channelling his expertise and enthusiasm into ground-breaking research in the area of solar distillation. This work reflects his commitment to addressing critical global issues such as water scarcity and sustainable energy. His research not only aligns with the nation's vision for renewable energy but also underscores his determination to make a meaningful impact on society.

An Inspiring Journey

Atish Deshta's journey from a small-town engineering college to the prestigious corridors of IIT Mandi is a testament to his unwavering dedication, intellectual prowess, and passion for innovation. His achievements serve as an inspiration for aspiring engineers and researchers, proving that determination and hard work can transform dreams into reality.
