

Mahatma Gandhi Government Engineering College Kotla Jeori

Name: Sushant Sharma

Batch: 2018-22

Branch: Mechanical Engineering

College: Mahatma Gandhi Government Engineering College Kotla (Jehri)

Sushant Sharma, has always demonstrated a strong commitment to excellence. During his academic journey, Sushant not only excelled in his studies but also cultivated a passion for engineering that set him on the path to remarkable achievements. His dedication to his craft and his college laid a strong foundation for his future career.

A Milestone Achievement: Clearing GATE

In 2022, Sushant achieved a significant milestone when he successfully cleared the Graduate Aptitude Test in Engineering (GATE), one of India's most prestigious examinations for engineering graduates. This accomplishment was the result of his rigorous preparation, discipline, and a sharp focus on his long-term goals. Clearing GATE opened the doors to a world of opportunities, one of the most notable being his selection as a **Scientific Officer at the Nuclear Power Corporation of India Ltd. (NPCIL)**.

A Distinguished Role at NPCIL

Sushant's selection in NPCIL marked a major turning point in his career. He joined the Kakrapur Nuclear Power Plant in Gujarat, where he began his professional journey in the nuclear power sector. Working at one of India's most important energy plants, Sushant quickly adapted to the challenges and responsibilities of the role, proving his competence and dedication in a highly technical and demanding environment.

Rising as an Executive Trainee

Currently, Sushant is excelling in his role as an Executive Trainee at NPCIL, a position that reflects both his expertise and potential for future leadership in the organization. His journey from a mechanical engineering graduate to a key player in the nuclear power sector stands as a testament to his hard work, determination, and unwavering commitment to his career.
